3359-20-05.1 Grading system, discipline, academic probation and dismissal.

(A) Faculty grade records.

(1) The faculty member is expected to maintain a careful and orderly record of each student's academic performance in each class. The records may be maintained in grade books provided by the university and all such records are the property of the university. When a faculty member leaves the employ of the university, or accumulates grade records no longer needed, these records should be surrendered to the department chair for disposition.

(2) The faculty member's grade records must be legible, understandable, and complete, as they are the ultimate information in case of questions concerning a student's or a former student's academic performance.

(B) Reporting grades.

(1)

earned is divided by the sum of the credits attempted. The quality point value per credit for each letter grade is shown in the following table:

grade	quality points	key
A	4.0

(D) Dropping courses – applicable to undergraduate and graduate students.

(1) It is the responsibility of the student to determine the impact of dropping from courses on matters such as financial aid (including scholarships and grants), eligibility for on campus employment and housing, athletic participation, and insurance eligibility.

(2) Students may drop a course through the second week (fourteenth calendar day) of a semester or proportionally equivalent dates during summer session, intersession, and other course terms. No record of the course will appear on the student's transcript. For purposes of this policy, the course term for a course that meets during a semester but begins after the beginning of a semester and/or ends before the end of a semester begins when its class meetings begin and ends when its class meetings end.

(3) Dropping a course shall not reduce or prevent a penalty accruing to a student for misconduct as defined in the student code of conduct.

(4) Degree-granting colleges may supplement this policy with more stringent requirements.

(5) This policy shall take effect at the beginning of the fall 2011 semester for all newly enrolled undergraduate students. In addition, this policy shall take effect at the beginning of the fall 2013 semester for all currently and previously enrolled undergraduate students who have not graduated prior to the start of the fall 2013 semester.

(E) Withdrawing from courses – applicable to undergraduate and graduate students.

(1) It is the responsibility of the student to determine the impact of withdrawing from courses on matters such as financial aid (including scholarships and grants), eligibility for on campus employment and housing, athletic participation, and insurance eligibility.

(2) After the fourteen-day drop period, and subject to the limitations

course by passing special examinations. The grade obtained is recorded on the student's permanent record and counts as work attempted whenever quality ratio calculations are made.

(2) Any student desiring to take special examinations for credit, before beginning to study for the examination and before asking the course instructor for direction, must first receive permission from both the student's dean and the dean under whose jurisdiction the course is listed. After permission is granted, the student prepares for the special examination without faculty assistance. Faculty members may describe only the objectives of the course and the work to be covered. The examination must be comprehensive and demand more from the student than is expected on a regular final examination in the course. The faculty member will file copies of the examination and the student's answers with the faculty member's dean.

(3) Credit by examination is not allowed during a student's last semester before graduation.

(J) Exemption from required courses.

Qualified students may be exempted from courses by examination, testing, or other means approved by the college faculty in which the course is offered.

(K) Faculty tutoring.

If a faculty member tutors a student in a credit course, the student's examination and other performance in the course must be planned and ev4(d a)4(n9na)4(t)-.4(r)3( )* [(e)4(v4(d a a)4(c(v4(d a 5nh8i)-2(2(l(a)4(c)4(1l)-2(t)-22()30(r
